The screenshot shows the Inguma 1.0-dev interface. The main window displays a network map with nodes and connections. A context menu is open over the node 87.230.87.158, showing options like Information, Services, Discovers, Gathers, Info, and Bruteforce. The Info option is selected, showing details for ssh (OpenSSH 4.2p1 Debian 7ubuntu3.2). The right sidebar shows a list of hosts and their details, including IP addresses, netcraft information, and ports. The bottom panel shows a log of actions performed, such as running hostname, tcptrace, asn, netcraft, and Get ASN against the target IP.
